Career Objective

Final-year B.Tech Computer Science student with hands-on experience in **Python, Django, Django REST Framework, Flask, MySQL, and React.js**. Seeking a **Python Developer** or **Django Developer** role.

Education

Fabtech Technical Campus,Sangola BTECH (Bachelor of Technology) (CGPA: 7.05)	2022 – 2026
Career Launcher Junior College,Mumbai HSC (Percentage: 64.50%)	2021– 2022
Shri Siddhanath HighSchool, Walekhindi SSC (Percentage: 84.50%)	2020– 2021

Skills

Programming Languages: Java, SQL, Servlets, JSP, Python **Frameworks:** Hibernate ,Spring Boot, Django, Django REST Framework (DRF)
Web Languages: HTML, CSS, JavaScript, ReactJs, Bootstrap. **Databases:** MySQL.
Tools: Eclipse IDE, MySQL Workbench, Visual Studio Code, Git, Github, Postman, Maven.

Training

Python - Full Stack Development(Technologies Used: Python | Django | MySQL | React) 9/12/ 2025 -06/08/2026

Kiran Academy, Pune

- Gained hands-on experience in web development projects using python, Django and React.
- Developed strong debugging and problem-solving skills during project execution.
- Worked on real-world applications, improving coding efficiency and understanding of full-stack technologie

Project : AI Resume Analyzer & Job Matching System(Technologies Used: Python| Flask | NLP)

- Developed an AI-powered application using Python, Flask, SQLite, and NLP techniques.
- Implemented ATS score calculation using Sentence Transformers.
- Extracted resume skills automatically using NLP.
- Generated personalized job recommendations and resume improvement suggestions.

Project : Employee Leave Management System(React.js, Django, Django REST Framework (DRF), MySQL, Axios, JWT Authentication)

- Developed a role-based **Employee Leave Management System** using **React.js** for the frontend and **Django REST Framework** for the backend, supporting **Admin, HR, and Employee** roles with secure authentication and authorization.
- Implemented complete **CRUD operations** for employee management and leave requests, including leave application, approval/rejection workflow, leave history, and role-based access control using RESTful APIs.
- Designed and integrated a **MySQL** database with normalized relational models for employees, users, departments, and leave records, ensuring data integrity and efficient query performance.

Technical Highlights

- Good Knowledge of Core Java ,Python and OOPS.
- Good Knowledge of ReactJS.
